

WELCOME TO KURUMENG

We are dedicated to sustainability, human-centered values, and lasting resilience for people, assets, and the environment. Our Prescriptive Reliability-Centered Maintenance (RCM) and Maintenance Priority Index (MPI) solutions deliver flawless operational excellence and strong resilience.

CORE OFFERINGS

We utilize facility data with advanced technology and smarter planning to enhance asset performance and increase uptime.

VALUE PROPOSITION

We improve asset lifecycle, safeguard assets, increase safety and efficiency, and deliver high-quality results across all sectors.

RELIABILITY CENTERED MAINTENANCE

We identify failure modes, assess their impact on operations, safety, and the environment, and develop targeted maintenance plans.

PRESCRIPTIVE MAINTENANCE

We provide practical guidance that balances costs, risks, and goals, assisting teams in maximizing uptime and lowering expenses.

MAINTENANCE PRIORITY INDEX

We create a data-driven decision engine that objectively ranks criticality factors to enhance reliability and efficiency.

STRATEGY & ROADMAP

We help organisations develop tailored strategies and implementation roadmaps for Prescriptive RCM and MPI through our collaborative five-phase process.
